Posted 13-09-2010 - We're pleased to report that we have not disappeared, we're working on our, as yet untitled, second album. About half the songs are recorded but we're hoping to find a new bassist before finishing the rest so we'll keep this site up to date with our progress. Meanwhile, have a listen to our debut album The Mystery Calculator, available on iTunes, Amazon, CDBaby and many more.
